SUNDAY");
    }
}

class Number extends Thread{
    public void run(){
        for(int i=1; i<=30; i++){
            System.out.print(i+"\t");
        }
        System.out.println();
    }
}

class Months extends Thread{
    public void run(){
        System.out.println("JANUARY, FEBRUARY, MARCH, APRIL, MAY, JUNE, JULY, AUGUST,
SEPTEMBER, OCTOBER, NOVEMBER, DECEMBER");
    }
}

public class Main {
    public static void main(String[] args) {
        DaysOfWeek t1 = new DaysOfWeek();
        Number t2 = new Number();
        Months t3 = new Months();
    }
}
```

```
t1.start();  
t2.start();  
t3.start();  
}  
}
```
